

## Install Directions for eCognition 9.5

There is a license borrowing utility for version 9.5. Feel free to use it if you need to borrow for a few days. If you have a need to borrow a license for more than a few days, please email [dvanderzanden@fs.fed.us](mailto:dvanderzanden@fs.fed.us) to confirm availability.

1. Click on the following link to download the eCognition\_Developer\_9\_5.zip file:

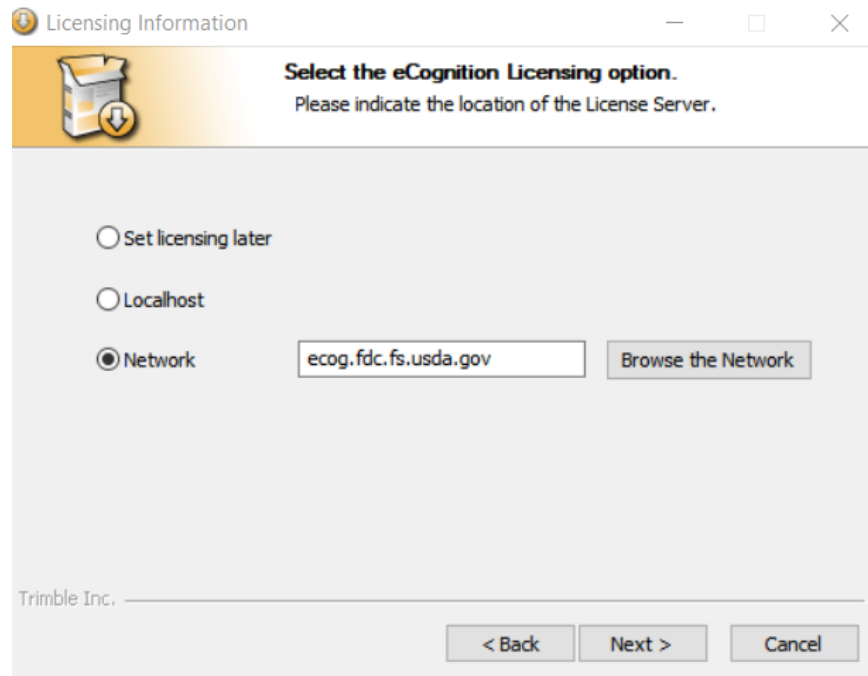

<https://usfs.box.com/s/jzh8nfjftxudhzjnzqcprihw4r1y6n8g>

### Installing Developer

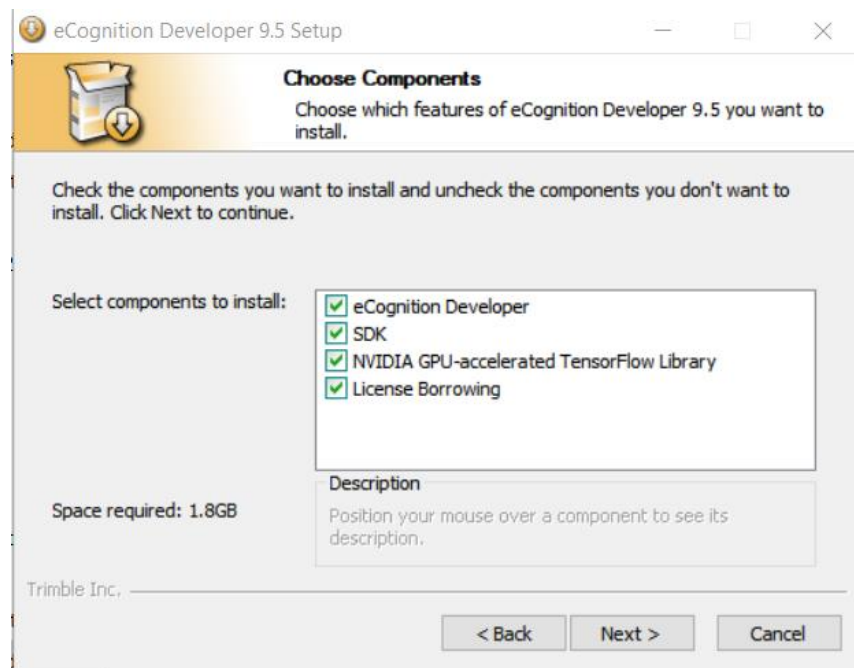

1. Extract the eCognition\_Developer\_9\_5.zip file to a folder.
2. Right click on Setup.exe and select "Run Elevated"
3. If an "authorize Application" window opens, enter "eCognition is on the approved enterprise software list" in the justification window.
4. Select "Next" from the dialog box that opens:

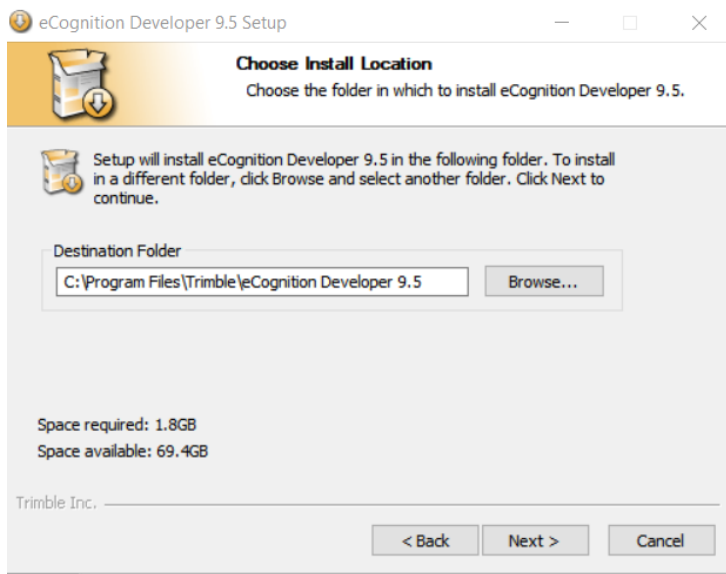

5. Select the "I accept terms of License Agreement" radial button and then select "Next"
6. Select the "Network" licensing option and enter **ecog.fdc.fs.usda.gov** in the box adjacent from "Network. Select "Next".

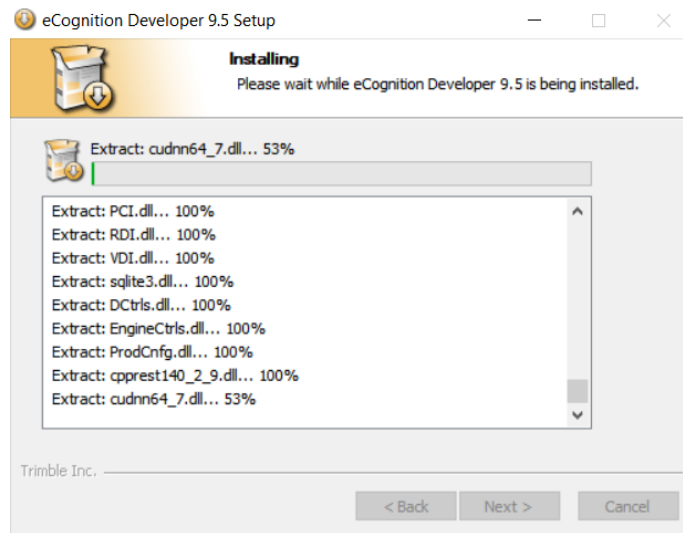

7. Ensure all components desired for installation are checked and then select “Next”.

8. Choose a “start menu folder”— take the default if you do not have another preference. Select “Next”.
9. Choose installation Location (default is recommended). Select “Next”.

10. Click on “Install” button and eCognition will install on your computer. It will take a few minutes to install.

11. Select “Next” and then “Finish” and installation will be complete.
12. Start eCognition Developer from Windows 10 program menu
13. Once open, if you want to ensure that upgrade worked, click on “Help/System Info” and you should see, under “Platform Version” that it is 9.5.0 Build 10 x64.
