# IR Scanner Online Ordering Form Update

## Updates For 2008

- Multiple scanner boxes per order
  - Multi-page PDFs
- Enter using coordinates or Google Maps
- Select and print, or archive, multiple orders
- New server and software
- Sort by username, last name, first name

## Updates For 2008

- Increased comments field to 1,024 characters
- Edit UTFs
- Vendors
- Google KML
- Simplified the form
  - Removed VOR
  - “Air-to-Ground” instead of ATGS
  - Incident # field

## Glitches in 2008

- New server w/ software installed one month late
  - Impacted Active FireMaps also
- A number of bugs cropped up when the NorCal lightning bust occurred
  - Rounding error in code shifted longitude of boxes  $1^{\circ}$  to west
  - A number of other really annoying bugs

## Updates for 2009

- Update the “How To” guide
- Redding Pod wish list
- Other requests for improvements and modifications?
